Welcome to
the 1st Electric Road Systems Conference 2017
14-15 June 2017, Högbo Brukshotell, Sandviken, Sweden

The Swedish research and innovation platform for electric roads is arranging the first dedicated international conference on the topic. The venue is Sandviken where Europe's first Electric Road System (ERS) implementation in public road is located.

The conference aims to gather international researchers and experts, to disseminate and discuss cutting edge results from research and pilot projects on the topic of Electric Road Systems, to facilitate and stimulate new collaborations, and to facilitate societal uptake of ERS as a sustainable solution for transport.

The conference program consist of keynotes and research result presentations, mixed with demonstration activities and industry panels related to all aspects of ERS.

We invite international researchers to join us to present result or participate in discussions. Results of research from academia, research institutes, industry and public authorities are welcome to be presented.

Topics covered include:

- ☑ Results from pilots, field trials and living labs
- ☑ Technical configurations/solutions
- ☑ System design and energy system integration
- ☑ Infrastructure aspects
- ☑ Business and financial models for ERS (vehicles, operators and infrastructure suppliers)
- ☑ Impacts of ERS: Environmental, Societal and Industrial

Conference fees (incl lunch & dinner)
Normal fee EUR 200
Early bird fee EUR 150
Presenters fee EUR 100

Submission of abstract, sign-up, and conference program can be found on www.electricroads.org
